

NEW FOOD FINDS

By Serena
March 27, 2014

There are constantly new and exciting food ideas on the market. From healthy snacks to on-the-go bites, here are some of our newest finds.

One of our favorite no sugar added drinks is from [good2grow](#), a line of healthy children's beverages featuring popular character tops that make these nutritional products fun for kids to drink. My kids loved the collection of tops featuring Minnie Mouse, Monsters Inc, Sponge Bob and more that feature a spill-proof Sippa – making it great for travel and on-the-go adventures. This includes a line of fruit, fruit and vegetable and organic blends of juice – all of which are non-GMO, have no artificial colors, preservatives, or added flavors.
